## ComBi-line

The ComBi-line machines offer you various options for producing large quantities of coffee and tea in a short period of time, ranging from 1 litre to no less than 160 litres per hour. Combinations are possible with containers of 5, 10, 20 or 40 litres for use on a buffet or in Combination with a serving trolley.

## Serving trolleys

Animo supplies a wide range of stainless steel serving trolleys: varying from simple trolleys to very extensive executions.

## OPTIFRESH

The OptiFresh is a Fresh Brew machine that makes a delicious cup of fresh brewed coffee at the touch of a button. In addition to 'regular' coffee, the OptiFresh also offers a wide range of coffee varieties. The machine is easy to operate and has a stylish design.

## OPTIVEND

A hot drink with perfect taste at any location on any moment of the day? The Animo OptiVend can offer you this with just one touch of a button.

## OPTICOOL

With the Animo® OptiCool you can enjoy fresh, pure and cold water at every moment of the day.
